Principles of the United Order of AntiMonopolists.

Realizing that our American government, not profiting by lessons from her predecessors, must now account for committing the same great crime which has caused the downfall of each former republic and understanding that the blighting curse to us results from secret bands of conspirators, by whom the great sovereign powers of government are being used to crush out the liberties of the people, and make slaves of the masses, causing such a state of destitution, discontent and crime, that no people can long endure, we, believing that "when bad men combine good men must associate," have formed the organization known as the United Order of Anti-Monopolists, and declare that there is a vital, dangerous and overshadowing question now before this nation, compared to which all others are insignificant. That question is: Shall the great powers of the government be used to crush out the liberties of the people, rob the industries make serfs and slaves of the masses or shall it be used as intended by the fathers to protect the interests of the people, guard their liberties and ald their happiness?

We, therefore, declare our objects to be:

1. Todo all in our power, legally, to secure the repeal of all class laws

2. To work for the abolition of the national banking system in the United States, and restore to the government alone the right to issue and control the volume of money.

The Work of Organizing the People's Party Starts Under Favorable Circum-

The work of organizing the people's party in New York city has started un-

der favorable auspices. In response to a call of the committee a largely attended meeting was held recently in Central hall, West Thirty-second street. Representatives from thirty-one organizations, representing 10,000 voters, responded. These included the Knights of Labor, the Citizens' Alliance and nese momentous facts it is thought adrisable to associate all the people into Nationalists' clubs. George McFadden, of the Franklin association of printers, was made chairman. The St Louis a people's party and allow all of the op-ponents of their rights to arrange themplatform was adopted, and a committee of twenty-four appointed to organize the various assembly districts. The inclination that way is general party will stand a good show to carry the state if the boom now on hand con-tinues. The abuse, slander and riditize the nation in the faith of old. The combat between the people and plutocracy will be long, desperate, and to the death. If the people succeed, cule heaped upon the order by the democratic leaders has helped the independent movement. There is pending in Tennessee a great political revolution the results of which no man can foresee; the foundation upon which it rests is adherence to principle. The self government proves a success. If the people lose, all is lost, self govern-ment, republican freedom, equal rights, sae citizens' pride, the efforts, blood party lash has lost its power. Ofve our and treasure spent in the past—all is lost. Make no mistake as to the issue greetings to the great northwest and tell them every true alliance man of the and the crisis. There is a strong and growing feeling here that the south and northwest unite to save this country her free institutions and the people from degraded servitude forced upon them by the monopolistic influences of the east.
